**Something For Nothing.**

To get something for nothing is rather a hard proposition, but we offer you the Live Stock Inspector, the subscription price of which is \$1.00 per year (and worth every cent of it); and the Weekly Leader, subscription price 50 cent per year (and cheap at that); both papers one year for only \$1.00. This is certainly full value for the money, but, in addition, each number of the Live Stock Inspector will contain, beginning at an early date, absolutely without extra cost to you, a "magazine supplement," containing excellent serial and short stories, of equal interest with those published in the popular magazines. This supplement will, alone, afford you a dollar's worth of entertaining reading.

Remember the Live Stock Inspector is the only stock paper published on the range and that it captured a grand prize at the Paris exposition. Sample copies sent on request.

**Announcement.**

In another column of today's issue appears the advertisement of the wonder book of American publications—of the acme of the compilers' and printers' art, where mechanical excellence, literary perfection and the zenith of accuracy of detail are combined in a volume of over 600 pages that sells at the popular price of 75 cents.

The 1901 volume is now ready for the public, and by special arrangement with the publishers we offer it in connection with one year's subscription to this paper at 75 cents. The NEW FEATURES enumerated in the advertisement published today are alone worth the price of the book. Besides the features announced, there are more than 1,000 other topics discussed, and more than 10,000 facts touched upon.

Read the announcement and send in your subscription.
